PROFESSIONAL SUMMARY

Entry-level Computer Science graduate with hands-on experience in IOS development using Swift and Xcode, along with a solid foundation in Artificial Intelligence and Machine Learning. Experienced in building user-friendly mobile applications and implementing basic ML models. Motivated to apply technical skills in iOS and AI development to support innovative, real-world projects.

TECHNICAL SKILLS

- **Programming Languages:** Swift Programming, Python Programming , C Programming
 - **Libraries & Frameworks:** SwiftUI, UIKit, Firebase, Scikit-learn , Streamlit, FastAPI
 - **Machine Learning:** Supervised Learning, Classification, Regression, Model Evaluation
 - **Database:** MySQL and Firebase Database
 - **Tools:** XCode, VSCode, GitHub, MS Excel, MS Word
-

PROJECTS

1. Weather App for iOS:

- Developed a real-time weather application for iOS using UIKit and Swift.
- Integrated OpenWeatherMap API to fetch current weather conditions, temperature, humidity, wind speed, and weather forecasts.
- Implemented network requests and JSON parsing for seamless data retrieval.
- Designed an intuitive user interface with dynamic weather icons and responsive layouts.
- Applied MVC architecture to maintain clean and scalable code structure

Technologies: Swift, UIKit, OpenWeatherMap API, Xcode, URLSession, JSON

2. Todo List App for iOS:

- Developed a task management application for iOS using SwiftUI and Firebase.
- Implemented Firebase Authentication for secure user registration and login functionality.
- Integrated Firebase Realtime Database/Firestore for cloud-based task storage and synchronization.
- Enabled CRUD operations (Create, Read, Update, Delete) for efficient task management.
- Designed a modern and responsive user interface using SwiftUI components.
- Implemented real-time data updates across devices through Firebase integration.

Technologies: Swift, SwiftUI, Firebase Authentication, Firebase Database, Xcode

3. Predicting Optimum Vessel Turnaround Time:

- Developed a machine learning model to predict vessel turnaround time using real-time AIS data
- Integrated live maritime data using AISStream API and historical datasets
- Performed data preprocessing, feature selection, and model evaluation to improve prediction accuracy
- Built REST APIs using FastAPI for real-time predictions
- Designed an interactive frontend dashboard for visualization and user interaction

Technologies: Python, Machine Learning, FastAPI, AISStream API, Data Visualization

PROFESSIONAL EXPERIENCE

1. IOS App Development Masterclass

IOS Academy | Sep 2025 - Oct 2025

- Learned iOS application development using Swift and UIKit.
- Built a WeatherApp integrating OpenWeatherMap API for real-time weather data.
- Implemented networking, JSON parsing, and UI development in Xcode.
- Followed MVC architecture and industry-standard iOS development practices.
- Developed hands-on experience with Git and GitHub version control.

2. Road Accidents Exploratory Data Analysis (EDA) Internship

Infosys Springboard | Internship 6.0 | Nov 2025 – Jan 2026:

- Performed exploratory data analysis on road accident datasets to identify trends and patterns.
- Cleaned and preprocessed larged dataset using statistical techniques.
- Generated insights to support data-driven decision making.
- Completed mandatory assignments as part of industry-oriented data analytics training.
- Create visualization to analyze accident distribution and key influencing factors.

EDUCATION

B.E Computer Science and Engineering

J.N.N Institute of Engineering, Chennai, Tamilnadu | May 2022 – May 2026

CGPA: 9.02

Higher Secondary Certificate

Lakshmi Matric Higher Secondary School, Chennai, Tamilnadu | 2021 – 2022

Percentage: 81.33%

Secondary School Leaving Certificate

Lakshmi Matric Higher Secondary School, Chennai, Tamilnadu | 2019 – 2020

Percentage: 85.80%

CERTIFICATIONS

- Swift Programming Language - (20 hrs)
- Python Essential 1 - CISCO (45 hrs)
- Machine Learning - NoviTech (30 hrs)
- Introduction to AI - Infosys Springboard (05 hrs)

RELEVANT COURSEWORK

Swift Programming, SwiftUI and UIKit, Machine Learning, Artificial Intelligence, Database Management Systems

SOFT SKILLS

- Leadership
- Time Management
- Adaptability
- Team Collaboration

LANGUAGES

1. English

2. Tamil
